INTERNATIONAL AFFAIRS: STRONGER EMPHASIS ON MARKET DEVELOPMENT NEEDED IN AGRICULTURES EXPORT CREDIT SALES PROGRAM: ID-80-01**DOWNLOAD**

GAO reported on the need for stronger emphasis on market development in the Department of Agricultures Export Credit Sales Program. This program, which was designed to supplement private export financing with interest-bearing government credits, has been self-supporting and has an excellent repayment record. However, it was found to need more active management to help maintain and develop markets for U. S. agricultural exports. The administrative office for the program has been passively reviewing requests for credits case by case, making the program more vulnerable to secondary economical and political considerations. Little has been done to develop a country-by-country strategic market plan which would incorporate information on foreign competitors and establish the most effective combination of direct private sales, Government credits, and market promotion. The program does not have safeguards for avoiding the replacement of cash or privately financed sales with credits. A provision guarding against this was revoked. The program has been used to provide economic support to foreign countries rather than to develop foreign markets for U. S. agricultural goods. The programs compliance with administrative regulations has been good, except that U. S. exporters have not been providing documents evidencing entry of financed goods into destination countries. Also, exporters have been requesting numerous amendments to financing agreements, which are almost always approved without verification. This item ships from La Vergne, TN. Paperback.
