Process Plant Lifecycle Information Management

By Robert Yang

iUniverse, United States, 2009. Paperback. Book Condition: New. 224 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Process plants produce products and perform functions through some processes. There are many types of process plants covering a wide spectrum of industries from chemical, oil and gas, pharmaceutical, food, power generation, water and waste water treatment, nuclear, to specialized government plants. From engineering, procurement, construction to operations of process plants, the key elements of lifecycle operations are essentially generation, manipulation, and management of information. In addition to documents that are the traditional way of representing information, the trend now is to emphasis on usage of data, databases, and 3-D models. Efficient plant lifecycle information management has to satisfy three basic requirements of what, when, and how information to be managed. Information integrity that means accuracy and currency is another key element of management consideration. Use of information data warehouse is an effective approach to store and control just one single source of information to be used throughout the plant lifecycle. Plant lifecycle information management is to increase productivity at the project level to reduce capital cost and time to market. At the plant level, the goal is...
