Createspace, United States, 2013. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.After a long day of work as a New Jersey prison guard, Linus Hather wakes up one night to find that his high-tech security system has caught an unexpected intruder. Upon seeing it, he calls his old college buddy who is a biology professor and he comes to Linus s house and tells him that he s captured a new man-related species (a hominid) that will change the world (in the same way that capturing a Bigfoot would)! His friend and the other scientists who come to take the creature away pronounce it as not dangerous. But Linus has evidence (or Had!) that the creature is a killer and was actually on his way to kill Linus that night. He has no luck convincing his friend, or the scientists, that the creature is a threat. Much to the scientists chagrin, it has escaped, and not only does the creature turn out to be dangerous, but basically it s a serial killer. And if that s not enough bad news, the evidence is stacking up that there appears to be more than one creature out there. Linus is set upon a path to find this killer before it kills again, but it turns out that he s pursuing the stealthiest mankiller that has ever lived and he ll need the help of many reluctant new friends from the four corners of the earth if he s going to have any success at capturing the Devil s Assassin.
