

Marine Protected Areas: Country Case Studies on Policy, Governance and Institutional Issues

By Food and Agriculture Organization of the United Nations, Food and Agriculture Organization

Food Agriculture Organization of the United Nations (Fao), Italy, 2012. Paperback. Book Condition: New. 295 x 208 mm. Language: French,English . Brand New Book. This document presents case studies of the policy, governance and institutional issues of marine protected areas (MPAs) in Brazil, India, Palau and Senegal. It is the first of four in a global series of case studies on MPAs. An initial volume provides a synthesis and analysis of all the studies. The set of global MPA case studies was designed to close a deficit in information on the governance of MPAs and spatial management tools, within both fisheries management and biodiversity conservation contexts. The studies examine governance opportunities in and constraints on the use of spatial management measures at the national level. They were also designed to inform implementation of the FAO Technical Guidelines on marine protected areas (MPAs) and fisheries, which were developed to provide information and guidance on the use of MPAs in the context of fisheries.
