O. , 2004. OCLC Number: (OCoLC)56123558 Subject: Bank capital -- United States. Excerpt: . . . 11 what the future holds. For these and other reasons, the FDIC believes that Basel II must be supplemented by the continued application of existing regulatory minimum leverage capital and prompt corrective action requirements. I am very gratified at the support our fellow bank regulators have expressed for this conclusion. We also understand that a leverage ratio alone cannot provide protection without the support of sound risk-based capital rules. It will be necessary to better understand the impact of the proposals on the capital required for specific activities. Maintaining capital adequacy under Basel II would be an ongoing task. Validating banks internal risk estimates would be a challenge. Doing so consistently across agencies would be a greater challenge for which an interagency process would be needed. The other key issue is competitive equity. Basel II has been expected to provide some degree of regulatory capital relief. The banks that stand to be directly affected by Basel II have expressed strong support for such capital relief. They have expressed concerns where they believe Basel II capital was too high. The key policy question is: What economic benefits and costs would come with changes in regulatory capital requirements Would the economic benefit of lower-risk-based capital requirements for large banks enhance their competitive posture or accelerate industry consolidation We recognize there are differences of opinion about the importance of competitive equity issues. That is why we need to pay close attention to the comments we receive on this issue. The agencies...
